EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Szymczak on January 7, 2005.

In claim 10, lines 5-6, "for providing position controlled adjustment to maintain" has been changed to -- for maintaining --; line 9, "the dual use vehicle comprising" has been changed to --the dual use vehicle supported on one of the rails and comprising--; line 11, "the carriage body" has been changed to -- a carriage body--; and last line, the last one of the two periods has been deleted.

3. In a discussion with Mr. Szymczak on January 7, 2005, the examiner suggested above amendments to claim 10 to correct informalities and to better define the instant claimed invention, i.e. the relationship between the rail and the dual use vehicle is not merely in term of an intended use but rather a positive structural connection therebetween.

REASON FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance: It is noted that Patent 5,845,583 to Jenson suggests rail and vehicle system of the type that is recited in the instant claim 10; however, none of the references of record suggests an

obviousness in making rail 7 of Jenson into the form of an extruded triangular shell filled with a support material, as recited in instant claim 10. Accordingly, independent claim 10 along with claims 11-12, 14-15 and 22, depending therefrom, are considered to be defined over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark T. Le whose telephone number is 703-308-3663. The examiner can normally be reached on Mon-Fri (8:00-5:00).
